PLAYGROUND SKILLBUILDER

MONTH 9

30 DEGREE TRIANGLES

COLOR GUIDE

The 30 degree triangles are made up of two 15 degree right triangles. To simplify cutting I've given directions below so that you can cut out a rectangle and then divide it into two units.

CUTTING CHART

C1	C2	C3	C4	C5	C6
C1	C2	C3	C4	C5	C6
(1) 17¾ × 5⅝	(1) 17¾ × 5⅝	(1) 17¾ × 5⅝	(1) 17¾ × 5⅝	(1) 17¾ × 5⅝	(1) 17¾ × 5⅝

CUTTING INSTRUCTION

1. Measure 1/2 inch down from the top left corner of your rectangle and make a tick mark with a fabric safe marking tool. Then measure 1/2 inch up from the bottom right corner and make a tick mark.

2. Place your ruler diagonally on your rectangle, connecting the two tick marks you made in step one and cut to produce two units.

PIECING INSTRUCTIONS

SAMPLE COLORS →	C1	C2	C3	C4	C5	C6
YOUR COLORS →	C1	C2	C3	C4	C5	C6

1. Pair up your units as seen above to piece your 30 degree triangles along the straight edge. Press seams open. Pay close attention to the orientation and color placement if you want to follow the color distribution in the original pattern.

YOUR COLORS →	C1	C2	C3	C4	C5	C6

2. Sew your C1-C6 unit to the C3-C4 unit as seen on the right. Do the same for the C2-C1 and C6-C4 unit. Press seams open. Refer back to the blog post for detailed information on how to piece 30 degree triangles.

3. Sew your units from the previous step together as seen on the right. Press seams open. Then add the C5 unit to the top right of that unit, and the remaining C2 unit to the bottom left.

Your final block should measure 17 ¾ inches wide by 23 ½ inches tall.
